PROFESSIONAL SUMMARY

Second-year Computer Science Engineering student with a strong foundation in Python, full-stack development, and AI integration. Experienced in architecting responsive web applications using React and FastAPI. Passionate about software engineering, tool-use architectures, and building real-world solutions. Seeking internship opportunities in Python, Full-Stack, or AI Engineering teams.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, HTML, CSS
Frameworks & Libraries: React, Tailwind CSS, FastAPI
Databases & Tools: MySQL, PostgreSQL, Git, GitHub, VS Code, Vercel
AI & APIs: Model Context Protocol (MCP), Groq API, OpenAI API

EXPERIENCE

Freelance Web Developer
Frontend Developer

Remote
Aug 2025 – Present

- Engineered and deployed responsive business websites for clients including **Sri Venkateshwara Enclave** and **Gooyer Living**.
- Translated UI design requirements into clean HTML/CSS/JS and React layouts, boosting clients' digital presentation.

PROJECTS

AI Flashcard Generator | *React, Tailwind, FastAPI, PostgreSQL, JWT, Groq API*

- Architected a full-stack educational app featuring dynamic card generation based on user text prompt inputs.
- Integrated **Groq API** via FastAPI to handle structured JSON schema generations efficiently on the backend.
- Secured user routes and session states by implementing a robust authentication layer utilizing **JWT**.

Sri Venkateshwara Enclave Web Platform | *HTML, CSS, JavaScript, Git*

- Designed and implemented a modular real estate showcase website with optimized graphic assets.
- Ensured multi-device cross-compatibility through utility-driven mobile-first responsive layout styling.

Personal Portfolio Website | *React, Tailwind CSS*

- Developed an interactive portfolio application to display technical frameworks, hackathon tracks, and active codebases.

GPA Calculator Application | *Python*

- Built a script-based automation tool to calculate cumulative grade point averages and streamline margin evaluations.

CERTIFICATIONS

Introduction to Model Context Protocol (MCP)
Anthropic Ecosystem Track

Anthropic

- Mastered fundamentals of building modular AI systems; developed custom Python-based **MCP clients and servers**.
- Explored standard protocols for connecting LLMs securely with local software toolsets and specific datastores.

HACKATHONS

Trigger Hackathon 2026 | *RNS Institute of Technology (Luminus National Level)*

April 2026

Axiom State-Level 24-Hour Hackathon | *SJBIT*

2026

EDUCATION

RajaRajeswari College of Engineering (RRCE)
Bachelor of Engineering in Computer Science and Engineering (Current CGPA: 8.95)

Bangalore, KA
2024 – 2028 (Exp)

Sri Chaitanya PU College
Pre-University Course (PUC) – Percentage: 92%

Ballari, KA
2022 – 2024
